

# **Surgical Case Carts Phased-in Implementation Plan**

***If possible... find a way to begin slowly.***

**[www.SurgicalCaseCart.com](http://www.SurgicalCaseCart.com)**

**Set up an implementation task force – include both CS and OR**

**Prepare “Functional Program” [flow chart with functions]**

**Select a Specialty Service to Begin With**

**Review all Surgeon Preference Cards for that Specialty Service**

**Develop list of items to be placed in Surgical Case Carts by CS for that Specialty Service**

**Enter Surgeon Preference Cards in Computer for that Specialty Service**

**Order Initial inventory of necessary Surgical Case Cart supplies for that Specialty Service**

**Train CS Staff**

**Evaluate the need for a ‘Surgical Case Cart System specialist’**

**During the initial phase provide a Backup Surgical Case Cart for that Specialty Service**

**Implement deployment of Surgical Case Carts for that Specialty Service**

**Evaluate: Surgical Case Cart inventory levels, and methods of operation**

**Repeat for Other Services.**
